

# Speaker-Rep. James Traficant, Jr. (Ohio)

## addressing the House:

"Mr. Speaker, we [the United States] are here now in chapter 11 [bankruptcy]. Members of Congress are official trustees presiding over the greatest reorganization of any Bankrupt entity in world history, the U.S. Government. We are setting forth hopefully, a blueprint for our future. There are some who say it is a coroner's report that will lead to our demise.

It is an established fact that the United States Federal Government [republic of the united States of America] **has been dissolved by the Emergency Banking Act, March 9, 1933**, 48 Stat. 1, Public Law 89-719; declared by President Roosevelt, being bankrupt and insolvent. H.J.R. [House Joint Resolution] 192, 73rd Congress in session June 5, 1933 - Joint Resolution To Suspend The Gold Standard and Abrogate The Gold Clause **dissolved the Sovereign Authority of the United States and the official capacities of all United States Governmental Offices, Officers, and Departments** and is further evidence that the United States Federal Government exists today in name only. The receivers of the United States Bankruptcy are the International Bankers, via the United Nations, the World Bank and the International Monetary Fund. All United States Offices, Officials, and Departments are now operating within a de facto status in name only under Emergency War Powers. With the Constitutional Republican form of Government now dissolved, the receivers of the Bankruptcy have adopted a new form of

### [United States defined

"United States. This term has several meanings. It may be merely the name of a sovereign occupying the position analogous to that of other sovereigns in a family of nations, it may designate territory over which sovereignty of United States extends, or it may be collective name of the states which are united by and under the Constitution. *Hooven & Allison Co. v. Evatt*, U.S.Ohio, 324 U.S. 652, 65 S.Ct. 870, 880,89 L.Ed. 1252." [Blacks Law Dictionary, Sixth Edition]

\*\*\*\*\*

"It may be merely the name of a sovereign occupying the position analogous to that of other sovereigns in a family of nations..." - defines the union states.

"It may designate territory over which sovereignty of United States extends..." - defines the corporate United States (District of Columbia).

"Or it may be collective name of the sates which are united by and under the Constitution." - defines the united States of America. Notice the lower case 'u'.

There is a difference between the u. S. of A and the U.S. and we need to understand the difference. It's important.

Therefore, when we speak of the United States within the law, we need to know and understand which United States is referenced.

It is to be noted that this definition disappeared in the seventh edition of Black's dictionary. ]

[ "Republican form of government" has nothing to do with the "Republican Party." ]

government for the United States. This new form of government is known as a Democracy, being an established Socialist/Communist order under a new governor for America. This act was instituted and established by transferring and/or placing the Office of the Secretary of Treasury to that of the Governor of the International Monetary Fund. Public Law 94-564, page 8, Section H.R. 13955 reads in part: "The U.S. Secretary of Treasury receives no compensation for representing the United States?"

[Democracy is majority rule. It is two wolves and one sheep sitting down to discuss what (or whom) is for dinner. Under a *republican form of government* the majority (the two wolves) do not have the authority to eat the sheep. In other words, the rights of the sheep are protected from the majority. It is what initially made America strong and the American people free.]

[ There is a difference between the U. S. Secretary of Treasury and the Secretary of Treasury of the united States of America. Remember, it all lies in understanding the term "United States (U. S)" and the reference (which one). It's all in the wording and remember also, '*ignorance of the law is no excuse*' even if the law is intentionally misleading. ]

Gold and silver were such a powerful money during the founding of the united states of America [the republic], that the founding fathers declared that only gold or silver coins can be "money" in America.

Since gold and silver coinage were heavy and inconvenient for a lot of transactions, they were stored in banks and a claim check was issued as a money substitute [evidence of deposit]. People traded their coupons [deposit certificates] as money, or "currency."

Currency is not money, but a money substitute.

Redeemable currency must promise to pay a dollar equivalent in gold or silver money. Federal Reserve Notes (FRNs) make no such promises, and are not "money." **A Federal Reserve Note is a debt obligation of the federal United States [corporate] government, not "money?"** The federal United States [corporate] government and the U.S. Congress were not and have never been authorized by the Constitution for the united states of America [republic] to issue currency of any kind, but only lawful money, -gold and silver coin.

[ "Money. In the usual and ordinary acceptance it means coins and paper currency used as circulating medium of exchange, ***and does not embrace notes, bonds, evidences of debt***, or other personal or real estate." - Blacks Law Dictionary, Sixth Edition. ]

**It is essential that we comprehend the distinction between real money and paper money substitute.** One cannot get rich by accumulating money substitutes, one can

only get deeper into debt. We the People no longer have any "money." Most Americans have not

been paid any “money” for a very long time, perhaps not in their entire life. Now do you comprehend why you feel broke? Now, do you understand why you are “bankrupt,” along with the rest of the country?

Federal Reserve Notes (FRNs) are unsigned checks written on a closed account. Federal Reserve Notes are an inflatable paper system **designed to create debt through inflation** (devaluation of currency). When ever there is an increase of the supply of a money substitute in the economy without a corresponding increase in the gold and silver backing, inflation [devaluation of the currency - loss of purchasing power] occurs.

Inflation is an invisible form of taxation that irresponsible governments inflict on their citizens. The Federal Reserve Bank who controls the supply and movement of FRNs has everybody fooled. They have access to an unlimited supply of FRNs, paying only for the printing costs of what they need. FRNs are nothing more than promissory notes for U.S. Treasury securities (T-Bills) - a promise to pay the debt to the Federal Reserve Bank [which is privately owned bank and not a Federal Government entity].

There is a fundamental difference between "paying" and "discharging" a debt. To pay a debt, you must pay with value or substance (i.e. gold, silver, barter or a commodity).

With FRNs, you can only discharge a debt.

**You cannot pay a debt with a debt currency system.** You cannot service a debt with a currency that has no backing in value or substance. No contract in Common law is

[ **Understanding inflation:** At one time you are making \$10 an hour in wages. A short while later you are making \$20 an hour in the same job. However, your Federal Reserve Note only purchases 25% as much as it did when you made \$10 an hour. What have you gained? In actuality you can only purchase 50% as much as you did at \$10 an hour. Today's 'one dollar' Federal Reserve Note has 3.2 cents the purchasing power it did when I was in High School in the early 1960's. Nice homes were less than \$10,000 and were paid off on a 10 year contract. Now the same home is over \$300,000 and paid for on a 30 year contract at over \$600,000. A job paying \$2.25 an hour when I was in High School would be paying \$67.50 an hour today if it had kept pace with inflation. Have you gained anything? ]

[ A Congressman asks what is backing the 'new currency?' Here is the answer

"Under the new law the money is issued to the banks in return for Government obligations, bills of exchange, drafts, notes, trade acceptances, and banker's acceptances. **The money will be worth 100 cents on the dollar, because it is backed by the credit of the Nation. It will represent a mortgage on all the homes and other property of all the people in the Nation.**" - Congressional record, March 9, 1933, House, Congressman Patman, 73<sup>rd</sup> Congress, Special Session, Volume 77, part 1, page 83 ]

[ "The ultimate ownership of all property is in the state, individual so called ownership is only by virtue of Government. i.e. Law, amounting to mere user. And use must be in accordance with law and subordinate to the necessities of the State." - Senate Document 43 under 'Contracts payable in gold.' ]

valid unless it involves an exchange of "good and valuable consideration." **Unpayable debt transfers power and control to the sovereign power structure that has no interest in money, law, equity or justice because they have so much wealth already.** [ The international bankers - New World Order Global Elite]

Their lust is for power and control. Since the inception of central banking, they have controlled the fates of nations.

The Federal Reserve System is based on the Canon law and the principles of sovereignty protected in the Constitution and the Bill of Rights. In fact, the international bankers used a "Canon Law Trust" as their model, adding stock and naming it a "Joint Stock Trust." The U.S. Congress had passed a law making it illegal for any legal "person" to duplicate a "Joint Stock Trust" in 1873. The Federal Reserve Act was legislated post-facto (to 1870) [to make the Federal Reserve Bank exempt from the "Joint Stock Trust" law of 1873], although post-facto laws are strictly forbidden by the Constitution. [1:9:3]

The Federal Reserve System is a sovereign power structure separate and distinct from the federal United States government. The Federal Reserve is a maritime lender, and/or maritime insurance underwriter to the federal United States [corporate] operating

[ As can be seen, enslavement of the American people is accomplished through 'fraud and deception' with the willing assistance of the *'free and independent press'* which is owned by the same International Bankers and Global Elitists. ]

exclusively under Admiralty/Maritime law. The lender or underwriter bears the risks, and the Maritime law compelling specific performance in paying the interest, or premiums are the same. Assets of the debtor [the corporate United States] can also be hypothecated ( [which is] to pledge something as a security without taking possession of it) as security by the lender or underwriter. The Federal Reserve Act stipulated that the interest on the debt was to be paid in gold. There was no stipulation in the Federal Reserve Act for ever paying the principle [principle = the amount owed].

Prior to 1913, most Americans owned clear, allodial title to property, free and clear of any liens or mortgages until the Federal Reserve Act (1913) "Hypothecated" all property within the federal United States to the Board of Governors of the Federal Reserve [Bank], - in which the Trustees (stockholders) held legal title. The U.S. citizen (tenant, franchisee) was registered as a

"beneficiary" of the trust via his/her birth certificate. **In 1933, the federal United States hypothecated all of the present and future properties, assets and labor of their "subjects," the 14th Amendment U.S. citizen [U. S. citizen], to the Federal Reserve System.**

In return, the Federal Reserve System agreed to extend the federal United States *corporation* all the credit "money substitute" it needed. Like any other debtor, the federal United States government had to assign collateral and security to their creditors as a condition of the loan. Since the federal [corporate] United States didn't have any assets, they assigned the private property of their "economic slaves", the U.S. citizens as collateral against the unpayable federal debt. They also pledged the unincorporated federal territories, national parks forests, *birth certificates*, and nonprofit organizations [which includes the churches], as collateral against the federal debt. All has already been transferred as payment to the international bankers.

Unwittingly, America has returned to its pre-American Revolution, feudal roots whereby all land is held by a sovereign [the Federal Reserve Bank] and the common people had no rights to hold [allodial title](#) to property. Once again, We the People are the tenants and sharecroppers renting our own property from a Sovereign in the guise of the Federal Reserve Bank. We the people have exchanged one master for another.

This has been going on for over eighty years without the "informed knowledge" of the American people, without a voice protesting loud enough. Now it's easy to grasp why America is fundamentally bankrupt.

Why don't more people own their properties outright?

Why are 90% of Americans mortgaged to the hilt and have little or no assets after all debts and liabilities have been paid? Why does it feel like you are working harder and harder and getting less and less?

**We are reaping what has been sown, and the results of our harvest is a painful bankruptcy, and a foreclosure on American property, precious liberties, and a way of life.** Few of our elected representatives in Washington, D.C. have dared to tell the truth. The federal United States is bankrupt. Our children will inherit this unpayable debt, and the tyranny to enforce paying it.

America has become completely bankrupt in world leadership, financial credit and its reputation for courage, vision and human rights. This is an undeclared economic war, bankruptcy, and economic slavery of the most corrupt order! Wake up America! Take back your Country."  
United States Congressional Record, March 17, 1993 Vol. 33, page H-1303
